The Task Group for PCB Analysis in Flexible Barrier Materials - Sub-Committee F2.30 will hold its meeting on 11 July 1973 in Midland, Michigan. The Dow Chemical Company will act as host for this meeting. The Topic of the meeting will be to discuss the results of the round robin samples and what changes are necessary with the methodology to improve the results. Scott Tucker of Monsanto has a wealth of background in PCB analysis and should be a welcome addition to the panel.

The Midland, Michigan, area is serviced by the TriCounty Airport in Saginaw, Michigan. Reservations for the group are being held at the Holiday Inn in Midland, Michigan. All those who plan on attending the meeting should notify me (803/439-4121) by 3 July 1973 for confirmation of rooms. An informal dinner and get-together will be attempted on the evening of 10 July 1973.

Sincerely,

W. R. Grace & Co.
