Dear Dr. Levinskas:

I am returning the black and white photomicrographs of Aroclor lesions in the rat liver that were taken by Dr. Pour at the Eppley Institute in Omaha, Nebraska and delivered to me by Jim Hill. I found his report interesting, although I do not concur with his classification and interpretation of some of the liver lesions.

Per your request, I am also enclosing a copy of Dr. Kimbrough's findings and report on Aroclor 1260 in the rat which you sent to me earlier in the year.

Sincerely,

D.E. Gordon
