After discussions with the Chairman and the President, I have been asked to restate and re-emphasize a policy of long standing which apparently is not thoroughly understood today.

Any inquiries or complaints, from whatever source, concerning alleged health hazards from use of Fiberglas products, or air or water pollution, are to be referred immediately to me or, in my absence, Mr. C. G. Staelin. The inquirer or complainant should be advised at once that the matter has been so referred, but without any further comment. Finally, no statements are to be made or comments given to any representatives of news media without prior consultation with me or, in my absence, Mr. James Murphy.
