Mr. Manfred Bowditch, Field Director
The Saranac Laboratory
Saranac Lake, New York

Dear Manfred:

Thank you for your letter of January 10. Dr. Shook and I expect to be in Saranac Lake February 5 as planned.

We appreciate your suggestion to stay over and enjoy some of the recreation that Saranac has to offer at this time of year. While it looks to me as though this would be a golden opportunity--nevertheless I'm afraid it's going to be necessary for both of us to leave Wednesday night.

We are looking forward to seeing you and Dr. Packard.

Sincerely yours,

OWENS-ILLINOIS GLASS COMPANY
