Mr. Elmer P. Wheeler
Manager, Environmental Health
Monsanto Company
800 North Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Elmer:

This is to confirm changes in feeding levels with the 90-day Aroclor studies. The feeding levels now are as follows:

Aroclor 5432	10, 100 and 300 ppm
Aroclor 5442	10, 100 and 300 ppm
Aroclor 1016	30, 100 and 300 ppm
Aroclor 1221	10, 100 and 300 ppm

Samples of liver, fat and muscle from all animals will be saved (frozen) for subsequent analyses.

The dog study with 5432 will need to be extended to allow a full 90 days of feeding at 300 ppm. Therefore the increase in cost will be $1,200. The costs of the other studies will not be increased.

Sincerely yours,

M. L. Keplinger, Ph. D.
Manager, Toxicology
