Subject: Asbestos Labeling

Dear Don,

We are in receipt of your letter of March 3, 1969 regarding the suggested wording changes on the bags.

It is our feeling that this caution is too strong and is likely to scare away perspective applicators. We feel a much simpler warning would be as follows;

CAUTION: This product contains asbestos and may be hazardous to your health while being sprayed.

Yours very truly,

Sprayon Research Corporation

Richard L. Kempthorne
