Dear Dr. Tapp;

Thank you for your time today. Please find enclosed a Material Safety Data Sheet for VISTA ODC. I believe this should meet your needs for completing the laboratory safety form.

I will look for your telex and confirm the testing and sample shipment by telex as soon as possible.

Sincerely,

Thomas G. Grumbles, C.I.H.
Director, Industrial Hygiene &
Product Safety

SUBJ: CUSTOMER MATERIAL SAFETY DATA SHEET DISTRIBUTION

VISTA

A letter regarding who should sign the distribution letter for Material Safety Data Sheets is attached. The last time we did a "mass" mailing Langford signed the letter. He suggests that you should this year.

I would appreciate your comments.

Thomas G. Grumbles

SUBJ: CUSTOMER MATERIAL SAFETY DATA SHEET DISTRIBUTION

Interoffice
Communication

VISTA

In 1983 we did our first distribution of product Material Safety Data Sheets (MSDS) to all current customers. At that time it was decided that you would sign the transmittal letter. We are preparing to do a similar mailing of MSDS's and I would appreciate your thoughts on who should sign the letter this year.

For your information there is now an OSHA regulation which requires that chemical manufacturers send MSDS's to their customers. Also, the MSDS's we receive generally have a cover letter. These letters are signed by a company official in a wide range of organizational levels from purchasing managers to executives.

When you have identified who should sign the letter this year we will seek their input on the content of the letter. Thank you for your attention to this matter.

Thomas G. Grumbles
