This is to advise that effective as of Tuesday, March 1, 1977, all litigation and claims relating to polychlorinated biphenyls will be transferred for handling by the litigation group in the central law staff, headed by Litigation Counsel W. E. McCurdy. On or about March 1, Suzanne K. Torrey, presently an attorney on the Monsanto Plastics & Resins law staff, will transfer to the litigation group to assist in the handling of such litigation and claims.

I am sure that you will all give the same cooperation to Mr. McCurdy and Ms. Torrey as you have given to the MIC law staff in the handling of these matters. Correspondence and other matters relating to such litigation and claims, accordingly, should be handled with the litigation group after March 1, 1977.

The MIC law staff will continue to handle legal matters relating to the phase-out of Monsanto's manufacture and distribution of polychlorinated biphenyls.

R. A. Stohr
Company Counsel
