Subject: RE: Inquiry re Pruitt statement on E15

Dan –

“Administrator Pruitt had a thorough, candid and productive discussion with Kansas corn and grain sorghum farmers on the Renewable Fuel Standard. He has always believed hearing directly from stakeholders is the most effective way to make informed decisions and is hopeful those in attendance today left with the understanding that the Trump Administration is committed to standing up for the American farmer.” – Lincoln Ferguson, EPA Spokesman

“The Administrator shared that he believes statutory authority to grant the RVP waiver for E15 exists under the Clean Air Act, and to be effective, would require a subsequent notice and comment rule making process.” – Lincoln Ferguson, EPA Spokesman

Subject: Inquiry re Pruitt statement on E15

Hi Molly,

A source just told us that Administrator Pruitt, while in Garnett, Ks., just stated his support for year-round E15 sales. Can you confirm?

Thanks very much.

Best regards,

Dan Macy
