

1 time he really wasn't any better. We rediscussed the
2 issue of chemotherapy.

3 He, again, for the same reasons that he had
4 turned it down previously, turned it down again, and
5 arranged for me to follow him and to treat his
6 symptoms as they arose.

7 I next saw him on April 25th and at this
8 time he came into the office. He was having worsening
9 pain, he was more short of breath and after evaluating
10 him I felt that I needed to admit him to the
11 hospital.

12 Q Where was he admitted at that time?

13 A Once more to Baltimore County General
14 Hospital.

15 Q And how long did he remain at Baltimore
16 County General after admitting him on April 25th?

17 A He was in the hospital from April 25th until
18 May 1st.

19 Q And during the time that he was in the
20 hospital from April 25th to May 1st, were there any
21 diagnostic tests performed on him at that time?
