Mr. H. K. Chapin
Socony Mobil Oil Company, Inc.
150 East 42nd Street
New York 17, New York

Dear Mr. Chapin:

The subject of precautionary labeling on Pydraul containers has undergone a thorough study in Monsanto. The rubber stamp you sent us sometime ago has been used to mark Pydraul 150 (Nyvac A) containers for your customers.

We have decided to use immediately a 5 x 8 inch label on all containers of Pydrauls 150, F-9, 625 and AC. This action is necessary due to recent changes in labeling laws enacted by several state legislatures. The label will read as follows:

CAUTION
CONTAINS CHLORINATED HYDROCARBONS

Avoid prolonged breathing of vapors or mists.
Avoid contact with eyes or prolonged contact with skin.
If skin contact is had, remove by washing with soap and water. For eyes, flush with water.
If clothing becomes soaked with fluid, launder before wearing again.

We have chosen to use essentially the same wording as on your rubber stamp.

STLCOPCB4004803

If this label meets with your approval, we think that uniform drum decorations and simplification of inventory control would be mutually beneficial.

If this new label is acceptable for your use, would you please sign and return one copy of this letter.

Very truly yours,

Richard Davis
Manager
Pydraul Sales
