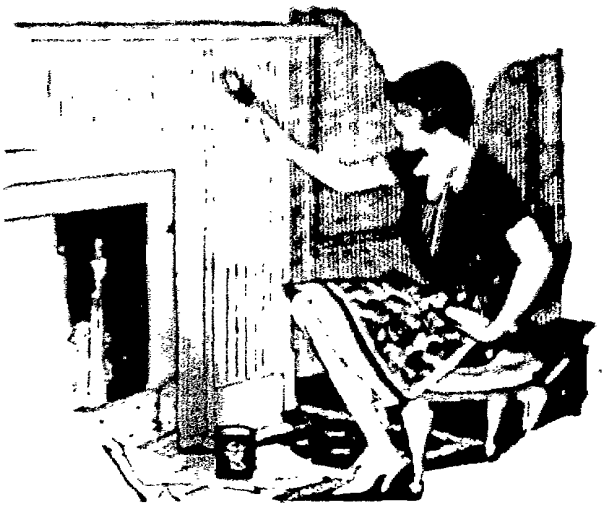
This beautiful du Pont paint is *washable*



DU PONT Interior Gloss can give a remarkable beauty to your walls and woodwork. Its sheen, its lovely modern colors, obtain just the effect you are seeking.

And you can wash it! A little water, and spots and dust and the marks of little hands are gone—with this paint you can keep your walls as clean as your kitchen tiles.

We are very enthusiastic about du Pont Interior Gloss. It is one of the amazing finishes produced by the great du Pont chemical organization. Like Duco, it is manufactured under strict chemical control. Come in and let us consult with you about the rooms you are thinking of doing over.

Here is the modern, economical wall finish.
