Attached is a copy of questions which EPA counsel may raise during the PCB hearings next week, and a draft of possible responses assembled by Jim Savage and Art Koenig. I do not propose that the answers be typed and submitted as a report to EPA. I do believe, however, that we should be prepared with appropriate answers in the event the questions are asked.

We will meet in Room B-274-S at 2:00 pm., Monday, May 6, 1974, for discussion.
