Minutes of the meeting helding July 14, 1977 were approved.

NEW STANDARDS

1. J10M (Proposed) - Determination of Moisture, Carbon Monoxide, Carbon Dioxide, and Oxygen in Stack Gases
Copy of proposed standard in pink sheet form was previously distributed and reviewed briefly. It was approved with minor changes for release to the Engineering Standards Committee for approval.

485

2. S11T (Proposed) - Priorities for Workspace Sampling for Exposure to Chemicals
The proposed reply letter to comments received under Serial Letter 4372 was approved for release. The draft of this standard, corrected in response to the serial letter replies and previously distributed, was reviewed and a number of changes agreed upon. These will be incorporated in the standard and necessary corrections

made. The revision will then be submitted to the subcommittee. The standard will be released for issue following a two week review period.

3. S12T (Proposed) - Strategy for Workspace Testing for Exposure to Chemicals
Draft of standard in pink sheet finished form previously distributed was reviewed and a number of changes agreed upon including the addition of the nomenclature. Corrections will be made and the standard released to the Engineering Standards Committee for approval.

4. S13T (Proposed) - Hardware for Workspace Sampling
The proposed typing copy previously distributed to the subcommittee was reviewed and minor changes requested. These will be incorporated in the pink sheet finished form draft. Following a ten-day subcommittee review of the latter, it will be released to Engineering Standards Committee.

REVISED STANDARDS

5. J4M - Stack Sampling Ports and Associated Facilities
C. H. Collier reviewed current Design Division experience with sampling ports and sampling platforms on stacks. He reviewed with the subcommittee, comments on proposed revision draft prepared by C. E. Marsh based on input from D. J. Stitzer and C. H. Collier. Standard was approved with corrections as recommended plus minor changes.

6. J9M - Continuous Stack Sampling for NO_x
Revised draft as prepared by R. E. Bucher is attached to these minutes. Standard will be released for November issue subject to any comments received from subcommittee review and response by September 30, 1977.
