What has the Monsanto plasticizer group done for adhesives?

The March 1978 issue of Adhesives Age has printed Neil Keeney's paper, "The Chemistry of Polymer Burning and Flame Retardant Mechanisms." This paper was presented to the fall Seminar of The Adhesive and Sealant Council in Southfield, Michigan, October 17, 1976. Copies of the paper were sent to you at that time. I will get reprints; let me know if you want copies for your customers.
