Monsanto Chemicals, Ltd.
10/18 Victoria Street
London, S.W.I., England

Dear Dr. Patterson:

I am presently involved in pesticide residue analyses with birds of prey. Because polychlorobiphenyl compounds can interfere with determinations of pp' - TDE and pp' - DDT due to overlapping chromatogram peaks (Holmes, et al. Nature, Vol. 216, October 21, 1967), I need reference standards of these polychlorobiphenyls. I would very much appreciate your sending me these standards if you have them available. Five gram samples will be more than adequate. If I can reciprocate in any way in the future please let me know.

Sincerely,

Jeffrey L. Lincer
Research Assistant
