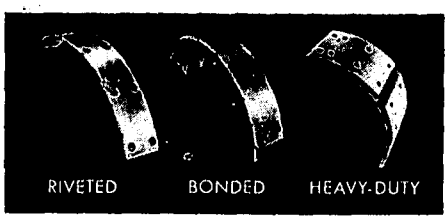
67,000,000 cars and trucks*



★ Over 13 million of the cars alone were produced within the last 2 to 3 years and are ready for relines or complete brake jobs *this* year.

★ Increasing production of power brakes offers new opportunities for specialized service and repair.

★ More miles traveled per vehicle—with more speed, more traffic, more frequent stopping.

★ Vehicle Safety Inspection Programs spreading rapidly from coast to coast.
