Dr. John Goode
Industrial Bio-Test Laboratories, Inc.
1810 Pershing Road
Decatur, Illinois 62526

Dear Dr. Goode:

I am sending you three samples identified as follows:

Name	Code	BTL No.
AROCLOR 1242	KK-475	72-82
~~SANTOSOL 300~~	AA-2	72-83
MIPB	Dixie Chemical	72-84

We desire that you run acute fish toxicity tests on these three materials using trout and bluegills with the MCA procedure used previously by Carmen Mastri. In this test, we desire that the levels be 0.1, 1, 10 and 100 ppm.

It is our understanding that this will cost $750 ($250 per compound). The charges should be billed to the NICC EPG account which was established recently. We would appreciate confirmation of the cost and a schedule for initiation and completion of these tests.

Sincerely,

George J. Levinskas, Ph. D.
Manager, Product Evaluation
Medical Department

cc: Dr. H. L. Keplinger

Dr. Keplinger - These are the same three materials referred to in our letter of July 31, 1972 to Carmen Mastri. Apparently these samples were lost in transit.
