PCB's in Human Adipose Tissue

R. E. Keller, S. Second St.
W. R. Richard, WRICH
E. S. Tucker, Queeny

W. B. Papageorge
WPAPA

Enclosed is a copy of a publication concerning the findings of PCB's in human fat.

You will note that it is "emphasized that the origin of the PCB materials----is uncertain at this time."

Secondly, the levels of 200 ppm and 600 ppm found are rather frightening. I am sure Bob Keller and Scott Tucker will want to critically review the analytical techniques and the chromatograms as they relate to quantitation.
