Subject S.A.E. DE CONDENSADORES DE TREVOUX

Att. Mr. J.M. Campbell

Dear John,

We have just received a letter from the above customer requesting us information about the toxicity of Arocler 1254 dielectric vapours.

They explain that one of their employees who used to work in the impregnation shop of capacitors and who suffered from a stomach ulcer, fainted upon entering the factory. The man died two days afterwards.

The Doctor reported to the Court that the man was under the poisoning effect from askarel or trichloroethylene vapours.

We are writing to you about this problem of Trevoux just for your information.

Looking forward to hearing from you, we remain,

Very truly yours,

DSW 020347

E. Ferrán.
