DRAFT

November , 1971

Dear Customer:

Our records show that our Company constructed a silo on your farm in the year 196__. We were pleased to have had the opportunity to serve you because we value your patronage and we hope that your Monteagle silo has been an asset to you. However, we are writing you because we are concerned about the ~~chemical~~ coating which was used to seal the plaster joints in the interior of your silo. That coating contains a ~~chemical~~ known as "Aroclor-1254" which was manufactured and sold for this purpose by the Monsanto Company.

Some state agencies have taken the position that the Aroclor-1254 contaminates the silage, or at least is a potential contaminant. ~~The Monsanto Company, on the other hand, has informed us that~~ the chemical in question does not contaminate the silage. We do not know which of these points of view is correct, but we do want to inform our valuable customers, such as you, about the matter, since you may wish to resurface the interior of your silo.

Very truly yours,

MONTEAGLE SILO COMPANY, INC.
