Food Price Cu Ordered June

10 Percent Reduction Covers Mea Butter, Coffee; Subsidies Planned

WASHINGTON, May 7 (U.P.)—Prentiss M. Brown, administrator, tonight announced 10 percent reductions ...tive June 1 in retail prices of coffee, butter, and five ...meat. The order, which reduces the prices of beef, pork lamb and mutton, marks the start of the administration ...mised drive to roll back living costs. Brown said the reductions will average about 2 cents a pound on the wholesale price of beef and veal and will reflect retail savings of about 3 cents a pound. Pork prices will be cut about 4 cents a pound, butter between 4 and 5 cents a pound, and coffee about 3 cents a pound. Reductions on beef will be in addition to those previously announced in a modification of the original specific ceiling prices.

Secy. of Commerce Jesse Jones said the Reconstruction Finance Corp. will cooperate in the price reduction program by making subsidy payments to processors of the reduced items to assure continued maximum production.

PRICE CUTS BACKED

The action, approved by James F. Byrnes, stabilization director, coincided with a formal statement by the war labor board expressing full accord with President Roosevelt's plan to reduce excessive prices as the best means of easing the unrelenting pressure for higher wages.

At the same time the WLB said it is unanimously convinced that the "hold the line" stabilization order issued April 8 by the president is unworkable without further clarification. This claim was in further support of its appeal to Byrnes for return of its powers over hardship and inequity wage cases now under his jurisdiction.

BOARD HARASSED

The board is harassed by its contention that the anti-inflation order transferring its authority to Byrnes in hardship cases left it little discretionary power.

The administration's attitude appears to be that its price roll-back program obviates the necessity for greater authority in the board than merely forcing and the "little steel" wage ceiling formula.

In addition to Brown's announcement of basic reductions in meat, coffee and butter, a high administration
