NEW IDEAS FOR THE CREATIVE SALESMAN

QUEENY
JOE DARBY

Filed Historical File #432

TO: [illegible]

DATE: August 28, 1969

SUBJECT: HOT MELT ADHESIVE FORMULATIONS

We are indebted to Union Camp's Technical Service Department for supplying the attached formulations for hot melt adhesives. All contain an Aroclor®.

Furthermore, in formulation 6-26F, Ethyl 702 is recommended at 0.5% as antioxidant.

Santowhite Powder should be recommended as a replacement. Santowhite Powder is covered by the FDA to the same extent as Ethyl 702.

A separate Plastifacts will be issued.
