Robert Cheever
MONSANTO COMPANY
1700 S. Second Street
St. Louis, MO 63104

Dear Mr. Cheever:

We are pleased that you have agreed to our nomination of Monsanto Company's J.F. Queeny Plant for an MWEA Industrial Silver Pretreatment Award. This is the second year for this award program, and we believe that your facility is deserving of the honor.

A copy of the nomination form is attached. Nominees were selected based upon our Fiscal Year 1994 Pretreatment Implementation Annual Report submitted to the Department of Natural Resources. Silver awardees must meet the following criteria:

1. The industry must have some sort of pretreatment or pollution prevention in place.

2. The industry must be in 100% compliance with all reporting requirements and may have a few minor discharge violations that do not place them in Significant Noncompliance.

3. The industry must have a history of a cooperative working relationship with the POTW.

You should be receiving further correspondence from Mr. Corrie Helber of the MWEA Industrial Waste Committee ((816) 796-7660). Awardees' certificates will be presented at the MWEA 1995 Annual meeting. This year's meeting will be held at the Lodge of the Four Seasons with the presentations scheduled during lunch Monday April 10, 1995. We are pleased to hear that you plan to attend. In the event that you cannot be present, certificates will be mailed to recipients unable to attend.

If you have any questions, please call me at (314) 436-8717.

Sincerely,
METROPOLITAN ST. LOUIS SEWER DISTRICT

Douglas M. Mendoza, P.E.
