Asbestos Analyses

PEArmstrong, RHarroun,
RSRoth, JJRonayne

Warren, I think it is essential that we spend the $1500-2000 on the necessary equipment to read the asbestos dust counts.

I will assume that you will work with Bob Harroun, Phil Armstrong and Bob Roth to determine whether it is appropriate that the necessary equipment be duplicated at Michigan and Geismar but I would guess that in the long run it would be essential to have the equipment in both locations.
