Aroclor - Sen

June 27, 1969

Mr. H. W. Speicher
Administrative Industrial Hygiene
Westinghouse Electric Corporation
East Pittsburgh, Pennsylvania 15112

Dear Wilbur:

Enclosed is a copy of the letter which we sent to the attorney in Phoenix. Also I have enclosed the "Inspection and Maintenance Guide" which we furnished him. You will note that we referred him to pages four and five for safe handling information.

I have also enclosed a copy of the ACGIH documentation sheet for phenyl glycidyl ether. I understand that the TLV is now 10 ppm but I don't know why it was lowered to this figure. There is also enclosed a Xerox copy of the first reference cited in this documentation. The latter is referred to in the second volume of Patty on pages 1639-1641 (copies also enclosed).

I am told that we do not have a separate bulletin on Aroclor 1254.

The two copies of the therminol bulletin which you requested are being sent under separate cover.

Best personal regards and good luck.

Sincerely,

Elmer P. Wheeler
Manager, Environmental Health
