Dear Mr. Leet:

Enclosed is a list of individuals who were contacted by the Survey Research Lab telephone center and who stated they did not wish to participate in the study as they never worked for Monsanto or at the Krummrich plant.

As we discussed, it needs to be determined why these individuals couldn't remember their work history at the time of screening. Although we did not examine them, Dan had stated this issue needs to be resolved in order for the response rate to be adequately evaluated within the next two weeks. Therefore, would you please send me a copy of these individuals' work history forms and I will compare the work history to data which was reported by them on the initial telephone contact.

Many thanks for your continued patience and assistance.

Sincerely,

Denise Oleske
