

February 2, 1925.

Dr. G. W. Thompson,
The National Lead Company,
111 Broadway,
New York City, N.Y.

Dear Dr. Thompson:

Dr. Aub has handed to me your letter and the accompanying checks, totalling \$4842.75, which sum is given for the purpose of continuing the study of problems in the lead investigation and the problems in mineral metabolism arising therefrom.

I understand that the sum above mentioned was contributed as follows,

National Lead Company-----	\$2,038.00
Eagle-Picher Co.-----	462.00
American Smelting & Refining Co.-----	964.11
St. Joseph Lead Co.-----	964.11
United Metals Selling Co.-----	303.03
United States Smelting, Refining & Mining Co.-	111.50.

I wish to thank you personally for your interest in and assistance towards the continuing of this very interesting, and I think valuable work. Will you be kind enough to transmit to the other donors the thanks of the School and the University authorities for these generous contributions to this study.

Very sincerely yours,

David L. Edsall, Dean.

DLE:MD.

January 31, 1925.

Mr. Charles Francis Adams,
50 State St.,
Boston, Mass.

Dear Mr. Adams:

I am inclosing in this letter checks amounting to a total of \$4,842.75 which checks represent part of the total amount pledged for assistance in the carrying out of the lead investigations here. This money is given for use by Dr. Joseph Aub, for the further prosecution of the lead problems and the question of Mineral Metabolism arising therefrom. This money should therefore be placed in the Lead Research Fund, as for the past three years, and should be subject to the direct recommendation of Dr. Aub for the problems above mentioned, the recommendations of course passing over my desk and being O.K.'ed by me in so far as is necessary.

I am inclosing a copy of the letter of transmissal from Dr. Thompson.

I do not think there is anything further to do about these checks. Several of them you will notice are made out to the Harvard School of Industrial Hygiene, which as such does not exist, but I suppose you can take care of that point.

Very sincerely yours,

RECEIVED JANUARY 31 1925
HARVARD SCHOOL OF INDUSTRIAL HYGIENE

NEW YORK

January 30th, 1925.

Dr. Joseph C. Aub
Harvard Medical School
240 Longwood Avenue
Boston 17, Mass.

Dear Sir:

I am enclosing you herewith six checks listed below, amounting to \$4,842.75, representing contributions to the \$5,000 fund about which we have corresponded.

There is still to be sent you \$157.25.

As I am leaving town for about a week, I am sending you these checks, and will send you the further amount (\$157.25) as soon as received.

Yours very truly,

J. H. Thompson
