RE: ASBESTOS PIPE INSULATION REMOVAL
Mr. Bill Stewart, P.E.
Executive Director
Texas Air Control Board
6330 Highway 290 East
Austin, Texas 78723

Dear Mr. Stewart:

The Celanese Chemical Company at Bishop plans to renovate about 1500 linear feet of steel pipe ranging in size from 1-inch to 10-inch diameter. This renovation will start July 7, 1980. The pipe is insulated with friable asbestos insulation, so insulation will be removed as the first step, and landfilled in the designated asbestos landfill located on the Plant site. All the precautions outlined in 40 CFR 61.20 - 61.25 will be observed.

This letter will serve as a notification of this work, as required by 40 CFR 61.22 (d) (2). The attached data sheet lists all of the pertinent data.

Please contact me if you have any questions or comments.

Very truly yours,

D. G. Pausky

D. G. Pausky
Acting Plant Manager
