Chrysler Institute, correct?

A For Chrysler Corporation, yes.

Q Right. And that was at the Chrysler Institute; is that right?

A Chrysler Institute was at Chrysler Corporation Central Engineering.

Q Okay. Fair enough.

What year did you leave there?

A 1957.

Q Is that when you went to work for Ford?

A Yes.

Q When you went to work for Ford in 1957, what was your initial position?

A It was called research engineer C. This particular designation was fairly much an entry level research engineer.

Q And what kind of activity or work were you doing research on at that time, do you recall?

A I had a number of projects that I was assisting on. One was doing structural analysis on sheet metal. The sort of things involved in making a
