PLAINTIFF'S EXHIBIT

USG-1423

it's time to take a look at

AUDICOTE*

ACOUSTICAL PLASTER

and the profit opportunities it opens up for you

Now—offer the added appeal of sound control when you go after big building jobs. Offer it at a saleable price with AUDICOTE Acoustical Plaster—ideal for ceilings in schools, churches, hospitals, stores, offices.

Incombustible AUDICOTE—designed for use over gypsum basecoat plaster, Portland cement-lime basecoat, or monolithic concrete—needs only water for mixing. It can be machine-textured, stippled, stipple-perforated, darbied or floated. It comes in Satin White (light reflectance .65) and new Special White (light reflectance .70) for maximum brightness. AUDICOTE has an N.R.C.† ranging up to .60.

Ask your U.S.G. dealer for full details, or write Dept. PI-73, 300 W. Adams St., Chicago 6, Illinois.
