Subject: [EXTERNAL] Spread the Word: Geothermal House DC MAGMA on Tuesday
March 4, 2025

Hey Friends,

Just making a somewhat personal touch about a one-of-a-kind event in DC next week that CRES is co-hosting.

I am excited to invite you to **Geothermal House DC MAGMA**, a unique and immersive event taking place on **Tuesday, March 4, 2025**, at the **Top of the Hill, One Constitution Avenue NE**, from **11:00 AM to 7:00 PM** brought to you by CRES Forum and Project Innerspace.

We'll explore how next-generation geothermal technology can strengthen U.S. energy security, fuel economic growth, create high-quality jobs and provide clean baseload power supported by U.S. supply chains.

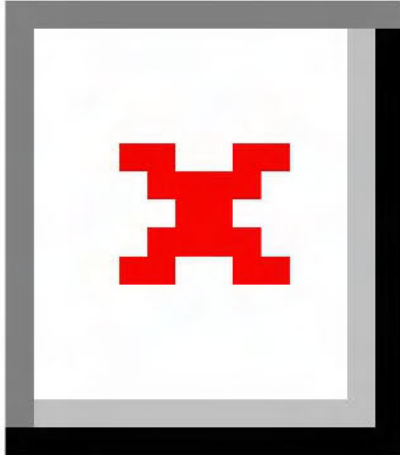

It promises to be an engaging day, with highlights including:

- Engaging panels featuring top industry and policy leaders
- A "site visit" to the Magma area of the Earth's crust via virtual reality
- Geothermal-themed food & drinks
- Networking with key decision-makers
- A sizzling reception to wrap up the day

More details on confirmed speakers and the full agenda should be posted tomorrow but we have Senator Curtis and Reps Pfluger, Weber and Hageman all speaking as well as key leaders in the corporate geothermal space.

Please share with your networks and register [HERE](#).

I look forward to having you join us for this exciting event!
