GENTLEMEN:

AS MEMBERS OF THE INDUSTRIAL HYGIENE FOUNDATION OF AMERICA, WE CAN REQUEST PUBLICATIONS FROM THEM AS THEY ARE ANNOUNCED. ACCORDIN I REQUESTED RECENTLY THAT THEY SEND TO US FOUR COPIES EACH OF CERTA PUBLICATIONS THAT I THOUGHT SHOULD BE OF INTEREST TO US RELATIVE TO ASBESTOS AND ASBESTOSIS. THIS HAS JUST BEEN RECEIVED AND I AM, ACCORDINGLY, FORWARDING TO EACH MEMBER OF THE TECHNICAL COMMITTEE, A SET CONSISTING OF THE FOLLOWING:

1- EXPERIMENTAL ASBESTOSIS, THE DEVELOPMENT OF LUNG CANCER IN RATS WITH PULMONARY DEPOSITS OF CHRYSOTILE ASBESTOS DUST.

2- NONOCCUPATIONAL DIFFUSE PULMONARY FIBROSIS (A REPORT OF A CASE IN AN ASBESTOS WORKER).

3- MORTALITY EXPERIENCED IN A GROUP OF ASBESTOS WORKERS.

4- ASBESTOS-DUST EXPOSURES AT VARIOUS LEVELS AND MORTALITY.

5- ASBESTOS AS A HAZARD TO HEALTH (FACT AND SPECULATION).

6- ASBESTOS BODIES IN HUMAN LUNGS AT AUTOPSY.

7- TEAR SHEETS OF WHAT WOULD APPEAR TO BE A JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION OF MARCH 25TH, 1968, SHOWING ON PAGE 1142 AN ARTICLES CONCERNING ASBESTOS BODIES AND THEIR DIOEFFECTS.

I BELIEVE THAT EACH OF US SHOULD BUILD UP A LIBRARY OF ALL PERTINEN INFORMATION AND BE THOROUGHLY CONVERSANT WITH THEM, SO THAT IF WE A.

Note: Publications re Health & Safety

CALLED UPON TO DEFEND OURSELVES, WE HAVE THE READY AMMUNITION AT HAND.

VERY TRULY YOURS,

SPRAYED MINERAL FIBRE MFRS. ASSN.
