New Computerized Air Tune Center III™

NEW FEATURES

Micro processor makes this the most precise charging station available.

■ *Completely Automatic* ■ *Digital Read-Out* ■ *Audible Alarms*

Accurate charging is critical for the new automotive air conditioning systems. Space Age technology makes this possible with the new Air Tune Center III.

ADVANCED FEATURES

- Fast, accurate charge rate one pound per 30 seconds
- Electronic scale measures Freon and oil to within one-tenth of an ounce and not affected by temperature or pressure changes
- Purges system, pulls vacuum (29.5"), and charges Freon and oil automatically
- Three separate audible signals
- Lighted push button operation reduces operator error
- Uses 30 pound cylinder or 14 oz. can of refrigerant

Part No. 209951 complete unit

Includes:

- 96" blue and red charging hoses
- GM and Ford high side adapter
- Refillable oil cylinder
- Anti-blow back valve
- Rotary vane-type vacuum pump
- Hand-held auxiliary gauge

One full year warranty from date of purchase
