C. P. Adams Lithopone

6-12-52

Thanks indeed for your report on the increased use of lithopone in Super Kem-Tone. I take it from this that you are in agreement with the figures as presented and furthermore that there is little or no advantage in increasing the lithopone percentage as proposed in the titanium conservation formula. If this is so, we have no other alternative but to consider billing the additional amount to the factories at the price indicated. If you run into anything which leads you to believe to the contrary, however, I would appreciate your letting me know.
