None; closing regional offices is an unsubstantiated rumor.

Hi,

I've been trying to get in touch with someone from the press office to quickly get a clarification on how many regional offices have been closed, or are in danger of closing since last February when it was first reported that the Trump administrations' funding cuts were threatening two regional offices.

Thank you in advance for your timely attention - this is a segment that needs to be finalized today in order to air tomorrow.

Kind regards,

Isabella
