Dear Dr. Levinskas:

As per your request of July 30, 1981, Dr. D. E. Gordon is attempting to locate the raw data for the pathology reports on histologic examination of additional liver sections from rats fed Aroclors 1242, 1254 and 1260 (IBT study no. 641-06672).

These data will be microfilmed and a diazo copy sent to Mr. A. Uelner, Manager, Quality Assurance. Xerox copies of these data will be mailed to your attention.

If I can be of further help, please contact me.

Sincerely,

Marilyn A. Biederer
Validation Assistance Specialist
