into evidence is OCF-270. It is from Jon L. Konzen, M.D. dated July 5th, 1972.

THE COURT: It will be admitted into evidence.

(Whereupon, Defendant's OCF Exhibit Number OCF-270 was received into evidence.)

MR. McGOWAN: The subject is asbestos caution label.

The standard for exposure to asbestos dust promulgated in the Federal Register, Wednesday, June 7th, 1972, by the Department of Labor of OSHA of 1970 became effective July 7th, 1972.

The standard prescribed a specific caution label which must be affixed to all raw materials, mixtures, scraps, waste, debris and other products containing asbestos fibers or to their containers so that during any reasonably foreseeable use, handling, storage, disposal, processing, or transportation, no airborne concentrations of asbestos in excess of the exposure limits prescribed.

At the present time, the caution label
