DATE April 8, 1976

CC: Plant Manager's Safety Board

SUBJECT SHAC ACTION REQUEST
NASA PROGRAM

REFERENCE

TO : Attached Distribution

At the NASA Kickoff Program on March 30, you were asked to report the new "Avenue" to Safety Awareness that you plan to use in your areas. For your benefit, the following segment of Arnold Glass' speech to the group is repeated below.

"Every Committee Chairman and every Unit/Craft Representative-Contact Supervisor Team will be expected to report to Harold Lacy, Chairman of SHAC, one or more avenues you plan to use in your group to get increased Safety Awareness."

A few approaches have been turned in and appear to be potentially effective. However, I have not heard from the vast majority of you and do want to be aware of the "avenues" being used for the purpose of publicity and possible more widespread application.

Send your suggestions to me at OA-3 right away. These suggestions should be reported and action underway by "Lift Off" which is currently projected for 0800 hours on Wednesday, April 14.

Harold Lacy
