A GOOD BUSINESS

Selling two full carloads of New Era Paint in four months is a very good business. That's our record. The people are realizing that it pays to use a Lead, Zinc and Linseed Oil Paint; they are realizing that water, fish oil, corn oil, kerosine, naptha, whiting, barytes, china clay, or lime are all adulterations and injure paint. They are realizing that New Era High Grade Paint is just as we represent it, as good a paint as is possible to make. This accounts for our increase of trade. We show you the correct analysis of our paint with pleasure. If you have not tried it, have your house painted with it and be satisfied.
