ALL ATTORNEYS ON PHONE: No.

RE-EXAMINATION

BY MR. BUTLER

Q Okay. Couple more for me, Mr. Roslinski, and then we'll be done. Exhibit 5, the caution statement that's attached to the letter to Mr. Altieri, at the top it states, Caution. Contains asbestos fibers. Avoid breathing dust. Breathing asbestos dust may cause asbestosis and cancer.

Is that information Ford knew when you started with Ford in 1973?

A Is what information?

Q Did Ford know that breathing asbestos dust could cause asbestosis and cancer when you started with them in 1983 -- or '73. Sorry.

A I believe so.

Q Did Ford know that breathing asbestos dust was hazardous to, to a person's health in 1973?

A I believe they believed it could be, yes.

Q All right. The next statement here says, Dust and dirt present on car and truck wheel brake and clutch assemblies may contain
