Dear Ivan: Re: Saranac Experimental Studies of Asbestosis

At long, long last I am happy to be able to provide you with a reprint from the January, 1951 issue of the A.M.A. Archives of Industrial Hygiene and Occupational Medicine of the article entitled 'Experimental Studies of Asbestosis'. I believe you saw it in draft form prior to publication. I believe you will find that some of its conclusions are helpful.

Additional copies, if you require any, can be obtained from Page Woodard.

I am leaving for a month's vacation and will think of you while running myself in Tasmania.

Sincerely,

Vandiver Brown
General Attorney
