VICTOPAC ENDS

July 26, 1968

L. W. Winchester

This confirms an agreement I had today with Henry Dehr regarding Victopac 61 ends, 15,000 pounds of which you have accumulated. These are to be shipped to Plant 4 on the 30th or 31st, identified as ends and will be transferred back at full material value.

Plant 4 has a particular requirement for the ends, will keep close tabs on utilization and advise of value adjustment based on utilization compared to prime material.
