Enclosed you will find the recent newspaper articles regarding the Rollins Environmental Services' PCB picketing which you requested during our conversation of May 25, 1979. I have selected articles that I feel you would be most interested in.

Also enclosed you will find a copy of the communique that I read to you over the telephone that was distributed throughout the plant. We were unable to identify who brought this to the plant, nor who was the originator.

We do know that at least one Delaware River employee has been in attendance to one or more local picketing meetings. In fact, we have circled his picture in one of our local newspaper articles for your information.

We have established a plan of action for the Memorial Day weekend and we will further refine that plan when we receive the materials you were forwarding to us. Any future newspaper articles and/or local events will be sent to you for your information.

Thank you for your assistance in this matter.

David A. Giffin
