W B Pappageorge B-288-S

This will note the comments made to you by phone regarding the draft of the Environmental Evaluation bulletin

1.) The phrase "positive environmental impact" should be changed to "favorable", or a similar word.

2) We interpret the section V.A. on p. 6 as meaning that group leaders, etc. are free to contact the Medical Dept. directly, as they have done in the past.

3) We can supply you with an adequate number of original copies of bulletins EC-201 and EC-202 for inclusion in the final version of this document.

Also, as mentioned, we would like to receive a copy of Bulletin O-18 - Procedure for Toxicological Testing.
