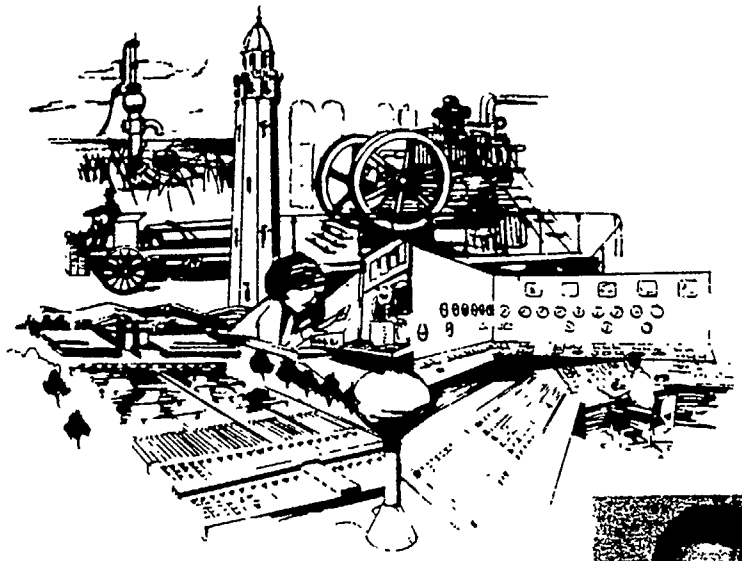
American Water Works Association
Annual Conference and Exposition

June 7-11, 1981

Cervantes Convention Center
St. Louis, Missouri

THEME: Another Century of Better Water Quality and Service



AWWA MEMBERS AND FRIENDS:

It is with great pride and anticipation that I announce the Centennial Conference and Exposition of the American Water Works Association. It will be held in St. Louis, Missouri—the location of the Association's founding 100 years ago—from June 7 to June 11, 1981.

The technical program, facilities tours and exposition will provide the latest information on a wide range of technical subjects: contaminant control, utility management, laboratory analysis, operator training, and many more. Our ability to improve the quality and quantity of the water we supply will be further enhanced in meetings with experts from not only our member countries of the United States, Canada, and Mexico but also with others from throughout the world. The Centennial Conference also will highlight the World Water Decade of the 1980s.

The Missouri Section members have prepared an exciting social and recreational program. The Banquet entertainment will feature outstanding performers of the music that accompanied the history of AWWA growth. The National Ragtime Festival will be underway in downtown St. Louis, and you will have an opportunity for individual entertainment, including a baseball game, shopping, and sightseeing.

The Conference will be keynoted by an outstanding speaker. These events and many more will make your visit to St. Louis worthwhile. You not only will have an enjoyable experience but also will improve your ability to meet the water service challenge of the next century. Let's help build a stronger Association through effective communication between all elements of the industry.

Meet us in St. Louis!

Jerome B. Gilbert
President

AWWA CENTENNIAL PRECONFERENCE SEMINARS

SUNDAY
JUNE 7, 1981
MARRIOTT'S PAVILION HOTEL
ST. LOUIS, MISSOURI

1. COAGULATION AND FILTRATION—BACK TO BASICS
2. ORGANIC CHEMICAL CONTAMINANTS IN GROUNDWATER—TRANSPORT AND REMOVAL
3. SMALL WATER SYSTEM PROBLEMS

SEMINAR SCHEDULE

- 8:00 AM - 9:00 AM
  - On-Site Registration
  - Pick Up Preregistration Course Materials
  - Coffee
- 9:00 AM - 4:00 PM
  - Seminars Run Concurrently
- 12:00 Noon - 1:00 PM
  - Luncheon

INFORMATION

- Registration includes course materials and luncheon.

	Member	Nonmember
• Preregistration	$50.	$70.
• On-site registration	$55.	$75.

- Shuttle bus service is not available Sunday A.M.

1. COAGULATION AND FILTRATION—BACK TO BASICS

SPONSORED BY THE WATER QUALITY DIVISION

Coagulation and filtration have been primary treatment practices in the industry for the past century and continue to be essential processes for controlling contaminants in drinking water today. Engineers and managers responsible for water treatment plant design will find the seminar of special value. In addition to the theoretical and practical aspects being discussed, particular attention will be given to new developments and design concepts related to coagulation and filtration processes.

SEMINAR TOPICS

- COAGULATION THEORY
- COAGULANT SELECTION
- FILTRATION THEORY
- TYPES OF FILTER DESIGN
- MEDIA SELECTION
- FILTRATION RATE

CAPCO JEN 0021257

MODERATOR

DR. CAROL H. TATE is vice president of James M. Montgomery Consulting Engineers, Inc., located in Pasadena, California, where she supervises studies on innovative treatment processes and conducts water quality investigations. She holds a B.S. degree in chemistry from Tulane University and completed master's and doctoral degree requirements in environmental science and engineering at U.C.L.A. Dr. Tate chairs the Coagulation/Filtration Committee of the Water Quality Division and heads the California-Nevada Section Committee on Water Quality and Resources.

SPEAKERS

Presentations will be made by a select group of instructors experienced in coagulation treatment practices.

MATERIALS

- Seminar Notebook
- Seminar Proceedings

2. ORGANIC CHEMICAL CONTAMINANTS IN GROUNDWATER—

TRANSPORT AND REMOVAL

CO-SPONSORED BY THE RESEARCH T&P COMMITTEE AND RESOURCES DIVISION

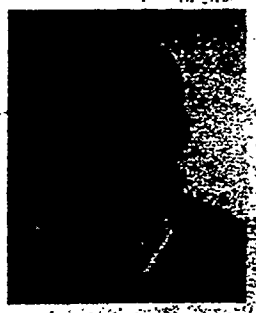
Organic chemical contamination of groundwater supplies is of great concern to the waterworks industry. Planning and control programs are rapidly evolving, but often without a proper understanding of the magnitude and extent of the problem. This seminar is aimed at acquainting management and technical personnel with the fundamentals governing groundwater flow, transport of organic contaminants, and treatment for removal.

SEMINAR TOPICS

- FUNDAMENTALS OF GROUNDWATER FLOW
- BASIC CONCEPTS TO DESCRIBE TRANSPORT OF ORGANIC CONTAMINANTS THROUGH GROUNDWATER
- MANAGEMENT ALTERNATIVES FOR DEALING WITH GROUNDWATER CONTAMINATION PROBLEMS
- GENERAL NATURE OF ORGANIC CONTAMINANTS IN GROUNDWATER AND APPROACHES TO TREATMENT
- ADSORPTION AS A TREATMENT PROCESS
- AIR STRIPPING AS A TREATMENT PROCESS
- CASE STUDIES INVOLVING REMOVAL OF ORGANIC CHEMICAL CONTAMINANTS FROM GROUNDWATER

MODERATORS

DR. FRANCIS A. DIGIANO is Chairman of the Organic Contaminants Committee of the AWWA Research T&P Committee. He is professor of Civil Engineering at the University of Massachusetts and Coordinator of the Environmental Engineering Graduate Program. His research interests span the area of treatment techniques for removal of organic contaminants. Most recently, he served on a subcommittee of the Safe Drinking Water Committee of the National Academy of Sciences.



CAPCO JEN 0021258

MR. DAVID W. MILLER is Chairman of the Groundwater Committee of the AWWA Resources Division and is a principal in the firm of Geraghty & Miller, Inc., consulting groundwater geologists and hydrologists. He holds degrees in geology from Colby College and Columbia University and has devoted more than 25 years to the solution of problems involving the management and protection of groundwater resources. He has directed numerous investigations on groundwater pollution problems, prepared manuals on monitoring for contaminants, and was responsible for developing a Congressional report on waste disposal practices and their effects on groundwater quality.

SPEAKERS

Presentations will be made by a select group of instructors experienced in groundwater contamination problems.

MATERIALS

- Seminar Notebook
- Seminar Proceedings

3. SMALL WATER SYSTEM PROBLEMS

SPONSORED BY THE WATER QUALITY DIVISION

The seminar explores problem areas identified in a 1980 AWWA survey of small water utilities, which comprise some 85% of total U.S. systems. It is designed not only for small system operators, but also for consultants, regulators, educators, researchers, and others interested in joining AWWA's effort to help improve the performance of small water utilities.

SEMINAR TOPICS

- OPERATOR TRAINING AND CERTIFICATION
- OPERATION AND MAINTENANCE
- DEMONSTRATION PROJECTS
- RESEARCH NEEDS
- MARKET STUDY ON SMALL WATER SYSTEMS
- STRATEGY PANEL (AWWA, STATES, EPA)
- REGIONALIZATION

MODERATOR

MR. ROBERT G. MCCALL, retired director of the Environmental Health Service, West Virginia State Department of Health, is a trustee of the Water Quality Division. He was recently named chairman of an AWWA ad hoc committee to define and investigate problems in small system operations.

CAPCO JEN 0021259

PRELIMINARY TECHNICAL PROGRAM
ST. LOUIS, MISSOURI June 7-11, 1981

(Additional information on the technical program will be published in AWWA publications—JOURNAL and WILLING WATER.)

MONDAY, JUNE 8, 1981

MORNING

OPENING GENERAL SESSION
Chairman: J.B. Gilbert
Vice Chairmen: K.J. Miller, J.H. Stacha, D.K. Shine, T.J. Blair III, D.B. Preston

ANOTHER CENTURY OF BETTER WATER QUALITY AND SERVICE

1. Invocation
2. Welcome
3. Opening Remarks
   J.B. Gilbert
4. Awards
5. Keynote Address

AFTERNOON

SESSION II • DISTRIBUTION DIVISION
Chairman: P.E. Pilgreen
Vice Chairman: D.E. Jackson

ENVIRONMENTAL CONSIDERATIONS AND OTHER DELAYS

1. Negotiating for Instream Water
   David Christiano
2. Environmental and Regulatory Chess Game
   R.L. Wubbena
3. Permit Program As It Affects Navigable Waters
4. Installation Problems and Special Techniques of Large Mains
   S.T. Fletcher
5. Innovative Design Overcomes Regulatory Constraints on Water Storage Facilities
   R.C. Haven

SESSION III • MANAGEMENT DIVISION
Co-Chairmen: C.A. Froman, Jr.
K.W. Peltz

MANAGEMENT CHALLENGES OF THE 80s: PEOPLE AND THE MANAGEMENT PROCESS

1. Evolution of Management and Organizations
   H.J. Graeser
2. Changing Attitudes and Management Styles
   R. Barefield
3. Communication and Relationships with Customers
   Kay Kutchins
4. The Regionalization Process
   C.R. Morris

SESSION IV • RESOURCES DIVISION
Co-Chairmen: F.M. McGowan
W.R. Inhoffer

INTERACTIVE DEVELOPMENT OF SURFACE AND GROUNDWATER SUPPLIES

SESSION V • WATER QUALITY DIVISION
Chairman: J.M. Symons
Vice Chairman: J.E. Singley

WATER QUALITY—PAST, PRESENT, AND FUTURE

SESSION VI • RESEARCH T&P COMMITTEE

SESSION XVII • MANAGEMENT DIVISION
HIDDEN COSTS OF ACCIDENTS
Chairman and Speaker: R.P. Van Dyke

SESSION XVIII • OPERATORS FORUM (Education T&P Committee)
Chairman: R.F. Layton
ANOTHER CENTURY OF IMPROVED OPERATION
1. Opflow and the Operator
   (Opflow Editorial Staff Member)
2. Water Meter Basics
   Michael Young
3. Tips on Pump Maintenance
   E.E. Arasmith
4. Safety and Traffic Routing
   R.L. Best
5. Cross-Connections—Their Importance and Control
   D.C. Anderson

SESSION XIX • SECTION OFFICERS FORUM

SESSION XX • INTERNATIONAL AFFAIRS II

SESSION XXI • WATER UTILITY COUNCIL
Chairman: W.H. Miller
1. Introduction
   J.B. Gilbert
2. Overview of the Water Utility Council
   W.H. Miller
3. Washington Activity
   Cliff Atkinson, Jr.
4. EPA's Drinking Water Program
5. Solving Water Utility Problems Today
   Water Utility Council Panel

SESSION XXII • RESEARCH T&P COMMITTEE

AFTERNOON

SESSION XXIII • DISTRIBUTION DIVISION
Chairman: J.M. Rasberry
Vice Chairman: G.O. Muller
POTPOURRI
1. Committee Report on Automation and Instrumentation
   J.R. Daneker
2. Tank Inspection, Cleaning, and Maintenance
   M.L. Bowden
3. Job Measurement Standards
   D.L. Tippin
4. A Practical Corrosion Control Program for Water Districts
   D.M. Waters
5. Maintenance of Valves and Hydrants
   B.W. Franklin

SESSION XXIV • MANAGEMENT DIVISION
Co-Chairmen: L.J. Hash
R.L. Lee
MANAGEMENT CHALLENGES OF THE 80s: MANAGING IN A CHANGING ECONOMY
1. Energy Management
   E. Persson
2. Water Use Management
   F.P. Griffith
3. Regulatory Controls
   C.A. Buescher, Jr.
4. Financial Management
   G.S. Saleba

SESSION XXV • RESOURCES DIVISION
Co-Chairmen: C.H. Thompson

CENTENNIAL MAGAZINE

Free to all technical registrants, this unique commemorative magazine traces the past, present, and future of the Association and the water-supply industry. Articles by distinguished authorities and full-color photo sections will make the magazine an interesting and attractive memento of the centennial.

PROCEEDINGS

The complete official proceedings will be published by AWWA. Save on the purchase price and assure availability by ordering your set on the Registration Form. It is anticipated that the proceedings will be 1200-1400 pages in length (two volumes) as in the past. Expected availability is November 1981.

SHUTTLE BUSES

For your convenience AWWA will provide free shuttle bus service during conference week. Specially marked buses will circulate between all official hotels and the Alfonso J. Cervantes Convention Center Sunday, June 7 through Thursday, June 11.

Transportation also will be provided to the opening General Session, Facility Tours, Ladies Activities, Golf and Tennis Toumaments, and the Annual Banquet.

MESSAGE CENTER

A message center will be in operation during the conference. It will be located in the Registration Area in the Cervantes Convention Center. The telephone number will be printed in the official program and in a subsequent issue of Willing Water so that you can leave the number with those who might need to reach you.

LADIES ACTIVITIES

While many regular conference activities will interest female spouses, a special program has been created for them.

The Ladies Hospitality Center will be located in the Sheraton-St. Louis Hotel directly across Seventh Street from Cervantes Convention Center. A convenient place to gather, the Hospitality Center will feature activities and refreshments and will serve as the take-off point for these special tours, which are included in the Ladies Registration:

- Missouri Botanical Gardens (featuring the famous Geodesic Climatron) and Historic Homes tour.
- St. Louis Highlights Tour ending with a special St. Louis Symphony "Pops" Concert.

Optional tours include a visit to the famous Gateway Arch; a Mississippi River Cruise; a visit to August Busch's Estate; Grant's Farm; a trip to St. Charles, Missouri's First Capital, for Antiques and Arts/Crafts browsing and shopping; and a Fashion Seminar and shopping excursion to beautiful Plaza Frontenac.

CAPCO JEN 0021264

FUN IN ST. LOUIS

To permit Conference-goers to enjoy the many diversions available in St. Louis as well as those sponsored by Exhibitors, a fun night has not been scheduled as an AWWA event.

Instead, representatives from St. Louis Scene will be on hand in the Registration Area to help arrange tickets and reservations for individuals and groups for local activities such as:

—Goldenrod Showboat: A Melodrama/Vaudeville Dinner Show
—Riverboat Moonlight Dinner Cruises
—Royal Dumpe: A 16th Century Dinner Theater
—Portico Dinner Theater: An Old Western Saloon
—Wild Times Corral: A Western Evening
—Champagne Tours: Highlighting St. Louis Night Life
—St. Louis Cardinals Baseball: Los Angeles or San Diego Games
—And More

When you register for conferences, you will receive material to sign up for these activities with your registration acknowledgment.

OPENING GENERAL SESSION

The opening General Session will be held in stately Kiel Auditorium and will have a "new look" featuring more color, dramatic staging, streamline programming, the inclusion of the AWWA Awards presentations with special visual effects, and an outstanding keynote presentation.

AWARDS

The annual awards presentation will be coupled with the general session on Monday morning. As part of the opening program, the awards presentation will honor members whose contributions to the Association and the industry have improved water supply or furthered our common goals.

ANNUAL BANQUET

AWWA will celebrate its 100th Birthday in proper style in the huge ballroom of Stouffer's Riverfront Towers, specially decorated in a "Turn of the Century" style. Entertainment will be light, bright, diversified...and will even involve the "Celebrators" in an exciting, fun-filled, and memorable evening.

CLOSING SCIENTIFIC LUNCHEON

To close Conference Week, Thursday, June 11 will feature a morning of technical sessions, and wrap up with a closing scientific luncheon highlighting an outstanding speaker.

SPORTS ACTIVITIES

The golf and tennis so popular at all AWWA Conferences will be repeated in St. Louis for those who enjoy a recreational diversion from the technical sessions and social activities.

The golf tourney will be held at Glen Echo Country Club on Monday, June 8 with tennis at South Hampton Racquet Club on Thursday, June 11.

Racquetball enthusiasts can look for later announcements and arrangements for that activity.

ADVANCE INFORMATION: HOUSING • TRANSPORTATION • TIMES • PLACES

Please retain this sheet and bring it with you to the conference.

HOTEL ROOM RESERVATIONS

Hotel room applications postmarked March 4 will be assigned on a first priority basis. Applications postmarked prior to March 4 will be processed next and all remaining applications will be assigned on a first mailed, first served basis.

Fill in the form thoroughly and accurately to ensure prompt handling of your application.

All requests for accommodations must be submitted on the official AWWA housing form.

Upon processing your application, the AWWA Conference Housing Bureau will make every effort to assign applicants to hotels of their choice. Care will be exercised to match the quality and rate for the type of room originally requested.

Reservations will be held until 6:00 PM. Be sure to indicate on the application if you wish to guarantee the guest room. This action will ensure the availability of the room no matter how late you arrive.

Deposits may be requested by some hotels.

Please allow 60 days for processing.

IMPORTANT

Cancellations: Notify the
AWWA Housing Bureau
1300 Delmar
St. Louis, Missouri 63103
Changes (i.e., type of room, day of arrival/departure, etc.): Notify the hotel directly.
Refer to reverse side of page for hotel rates and locations.

TRANSPORTATION

AIRPORT TO DOWNTOWN

Attendees are urged to use Airport Limousine Service that operates on a continuing basis between the Lambert-St. Louis International Airport and downtown. The current cost is $5.50 per person one way, and $10.00 round trip.

Taxis are available and the one-way ride from the airport to the downtown area should not exceed $15.00.

SHUTTLE BUSES

Shuttle buses will operate on a daily basis . . . Sunday, June 7 to Thursday, June 11, 1981. Daytime service will concentrate on transporting people from the participating hotels to Cervantes Convention Center and back.

Details will be included in the conference program and in subsequent issues of Journal AWWA and Willing Water. Signs will be posted in the participating hotels and the Convention Center.

Service also will be provided for the Annual Banquet on Wednesday evening.

TIMES AND PLACES

REGISTRATION

The AWWA Registration area will be located in the lobby of Cervantes Convention Center (see map). This applies to advance registration as well as on-site registration.

Schedule:

Sunday	11:00 AM to 5:00 PM
Monday	8:30 AM to 5:00 PM
Tuesday	8:30 AM to 5:00 PM
Wednesday	8:30 AM to 12:00 NOON

TIMES AND PLACES

SEMINARS AND CONFERENCE
