SUBJECT PCBs

REFERENCE Monsanto Customers

TO Dielectrics Distribution - Latin America

There have been a number of instances when government agencies, or outside entities, came to us requesting information about our PCB customers. This can take place in the U.S., or anywhere in the world. MICC's Legal Department, in complying with Monsanto's policy regarding requests for such information, has established the following procedure:

1) Any such requests received by you must be brought to our attention. (Forward immediately to NJK.)

2) To insure adequate coordination, all requests will be handled in St.Louis. They will be reviewed by appropriate MICC Staff members.

3) All responses on behalf of Monsanto will be provided in writing from St. Louis.

4) Only requests from governmental agencies will be considered; and only requests from governmental agencies that have a direct jurisdictional need to know, e.g. environmental agencies, will be honored.

5) The request must be in writing, and the response from Monsanto either honoring or denying such written request must, likewise, be in writing.

6) Only the names of customers within a particular country will be provided to the governmental agency within such country; and only customer names and corporate address will be provided if a request is honored by St. Louis.

7) This policy applies to customers buying ex-local stocks as well as indent customers importing from the U.S.A. or U.K.

8) If you receive any such request, you should make no reply nor provide or release any information. Bring the request to our attention and await instructions.

Please be sure that everyone on your staff and in your office, who has a need to know, is made aware of this policy and the importance of following the above procedure. There can be no deviations.

I am asking that you acknowledge receipt of this memo by signing and returning the extra copy which is enclosed.

Thank you very much for your continuing help in implementing Monsanto's PCB Sales Policy.

N. J. Kamper

N. J. Kamper

P.S. We would like to know if you have had any such requests in the past and what action was taken.
