Jay,

At our N.A.M.A. meeting Friday, I talked with Paul Kindig, who is Manager of Material Resources and TrafficeOperations for Corporate G.E.

My basic question was if Monsanto should be maintaining some Corporate contact at Fairfield or Bridgeport who might influence or coordinate fluid purchases at both transformer and capacitor groups. The answer was No.

Kindig did say that Bob Abbe had just been transferred to Pittsfield and would coordinate all purchasing for the Power and Distribution Transformer Group, including Pittsfield and Rome locations. Apparently, Roberts has recently been transferred from Schenectady to Pittsfield and will become Group V.P. for this function and he has brought Abbe with him.

(Lee, this confirms what Roethke told you, with more detail.)

Jay, you and I should plan to visit Abbe in Pittsfield soon.

P. L. Slayton
