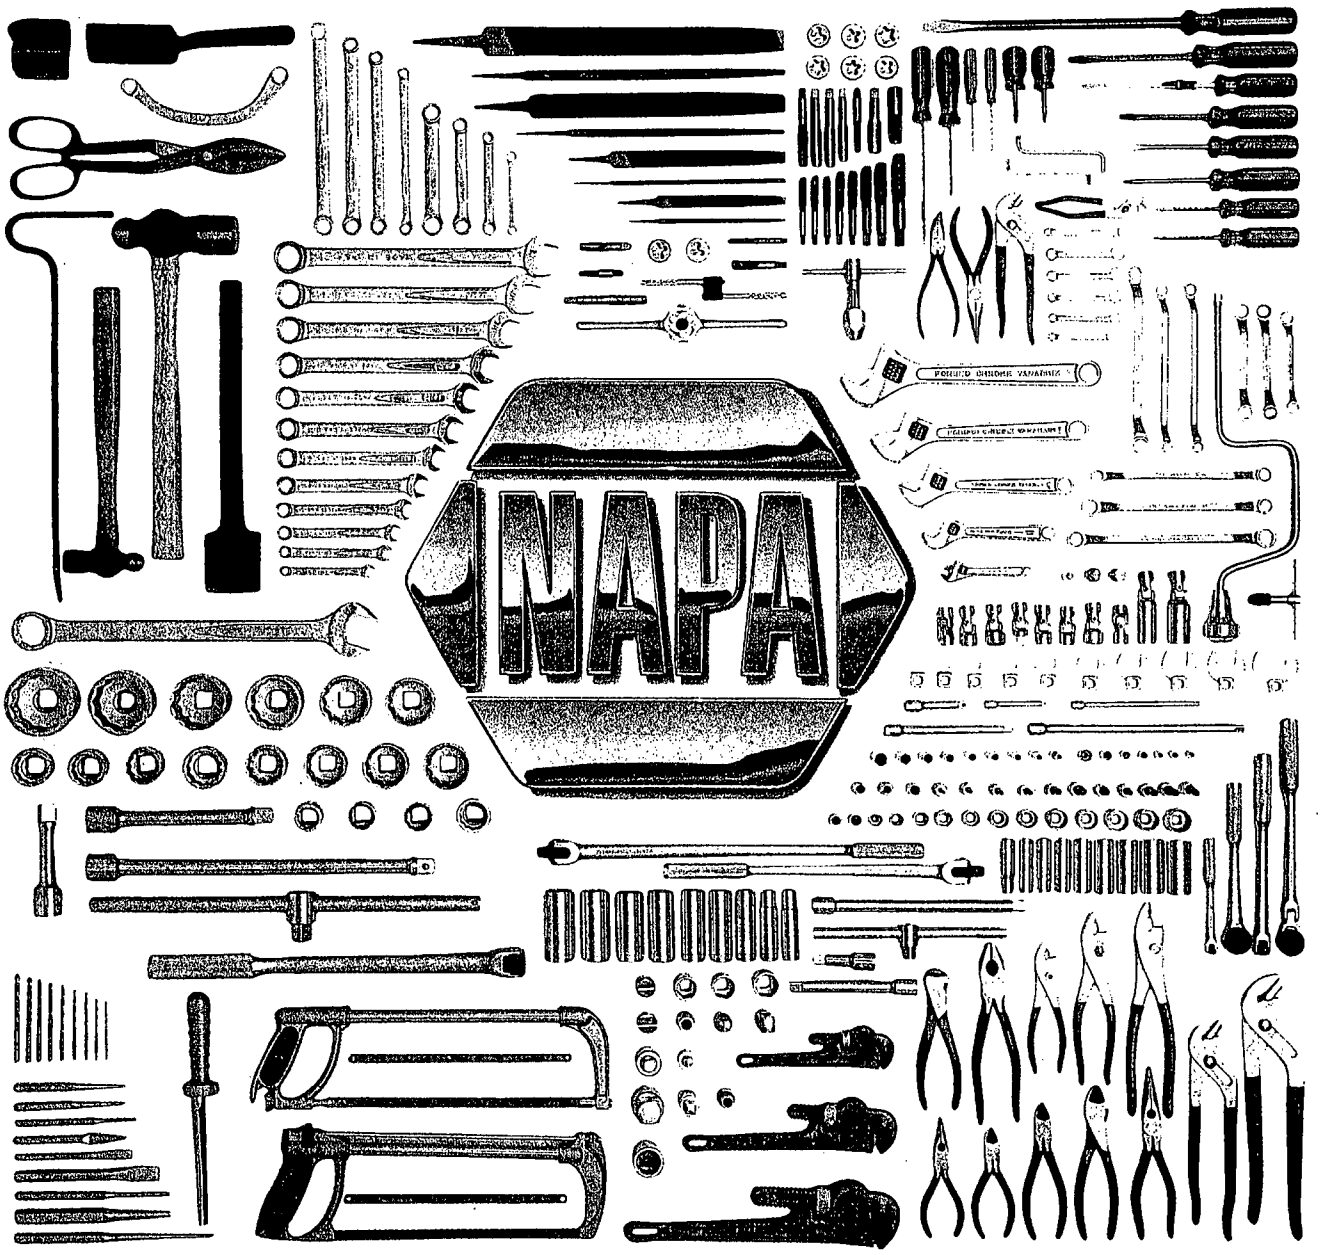
THE NEW NAPA LINE OF HAND TOOLS IS ON ITS WAY.



The new NAPA Hand Tools line will make you a strong competitor in the hand tool business. This broad line of professional quality tools includes all the tools your customers are likely to need, yet costs you significantly less. By eliminating duplicate items and cutting costs, we've reduced your investment by over 20%.

The quality and product offering couldn't be better. Every NAPA Hand Tool is backed by a "no questions," lifetime guarantee. Plus we've added new tools for more car repair needs. Best of all, it's a NAPA brand.

You get the best marketing and sales support available when you sell NAPA Hand Tools. You can look forward to a new merchandising system, great-selling NAPA promotions and plenty of factory support.

We're putting the finishing touches on the program right now. The pricing and classification take effect in February. Your NAPA Hand Tool salesman and NAPA Distribution Center will fill you in on the other details and important dates.

Get ready to get back in the tool business with the new NAPA brand of hand tools.
