INTER-OFFICE CORRESPONDENCE

Industrial BIO-TEST *Laboratories, Inc.*

FROM: OEF

DATE: July 25, 1969

TO: JCC, MLK, JP, CM, JFV, DC
And r R. [illegible]

SUBJECT: Visit by Elmer Wheeler and Others from Monsanto

A group of Monsanto people with Elmer Wheeler will visit the laboratory on Thursday, July 31, to review certain aspects of the Aroclor studies. He requested that we have brief status summaries of all the projects in progress. There are certain problems with the fish toxicity studies. The materials being found in water and fish from the fish toxicity studies do not correspond to the materials expected from our labeling.
